

平成30年度 第1回 研究談話会

日時：平成30年6月12日（火）18時00分

場所：病院12階講堂

演題：**Modern caries prevention
with fluorides
and biofilm control**

講師：J.M. ('Bob') ten Cate

Emeritus Professor of Experimental Preventive Dentistry,
Academic Center for Dentistry Amsterdam (ACTA),
University of Amsterdam, the Netherlands

略歴：2007–2015: Academy Professor, Royal Academy for Arts and Sciences (KNAW)
2008–2009: President of the IADR
2000–2006: Director, IOT (Netherlands Institute for Dental Sciences)
1996–2016: Prorector, University of Amsterdam
1985–2014: Professor of Experimental Preventive Dentistry, Academic Center
for Dentistry Amsterdam (ACTA), University of Amsterdam, the Netherlands

Dr. J.M. ('Bob') ten Cate is Academy Professor with the Royal Netherlands Academy of Arts and Sciences (KNAW) and Executive Director of the Academic Center for Dentistry Amsterdam Dental Research BV. He is Emeritus Professor of Experimental Preventive Dentistry.

Over a period of 40 years his research focused on caries prevention and oral infectious diseases, specifically the mode of action of fluorides and antimicrobials. He has published over 300 full length papers.

In the past he served as Dean of ACTA, President of the European Organization for Caries Research (ORCA), European and World President of International Association for Dental Research (IADR) and Editor-in-Chief of Caries Research.

For his research he received the ORCA-Rolex Prize (1986), the Yngve Ericsson Prize for Prevention (2000), the IADR Distinguished Scientist Award in Caries Research (2003), an Honorary doctorate University of Oslo (2010) and the Award of Excellence EurFedConsDent (2011). In 2015 the King of the Netherlands appointed him Knight in the Order of the Dutch Lion.
