

平成 30 年度 第 3 回 研究 談 話 会

日 時 : 平成 30 年 9 月 3 日 (月) 17 時 15 分

場 所 : 第一小講堂

演 題 : **The Community Lifestyle of
*Porphyromonas gingivalis***

講 師 : Richard J. Lamont

Oral Immunology and Infectious Diseases,
University of Louisville, USA

略 Professor Richard Lamont graduated with a BSc (Honours) from the University of Edinburgh in 1982 and completed his PhD in Bacteriology from the University of Aberdeen in 1985. He has held academic appointments in various universities in the USA. Since 2010, he holds the Endowed Professor and Chair in the Department of Oral Immunology and Infectious diseases in the University of Louisville, USA. He is also a recipient of various awards among which are the IADR Distinguished Scientist Award (1995, 2006), the MERIT award from NIH (2009-present) and the University of Louisville Presidents Award for distinguished research in 2016. He is a prolific researcher and is currently a principal investigator in 5 grants from NIDCR and also an investigator or mentor in 3 other active grants. He has authored over 200 publications in peer-reviewed journals and 5 books. He has been editor in chief of the journal Molecular Oral Microbiology since 2015.

歴 :

口腔バイオフィルムと口腔の健康あるいは種々の疾患との関連について、最新情報を解説して頂ける予定である。これまでに口腔内細菌である *Porphyromonas gingivalis* の研究を中心に精力的に進め、数多くの研究論文を発表している。本研究談話会では、*Porphyromonas gingivalis* の歯肉上皮細胞への付着機構に関する分子生物学的な研究結果について説明する。

担当教室：微生物感染学（口腔科学）

神奈川歯科大学学会
